Description:

Spotacus (affectionately known as Spot) is a striking, big-framed weanling alpaca. He's curious, alert, and developing into a self-assured alpaca who's comfortable around people and other animals. With continued handling, he has all the makings of an easy-to-manage, lovely, gentle natured (like his dad!) young male.

Up to date with vaccinations and routine care, he's ready to go, or could be reserved until after shearing in May. Ideally he will be sold with a friend or two and a group discount will be made. No VAT
