Description:

Xtreme is a superb male, exhibiting the optimal characteristics of a successful herdsire. His conformation and fibre quality, the black and grey colours in his background and the championship bloodlines in his pedigree make him an ideal fit into our black and grey breeding program.

Xtreme is a solid male, with a square build and solid bone structure. His fleece is very dense, with brightness and has a soft handle. His fleece has a tight crimp style with pencil locks and full body coverage from his nose to his toes.

Xtreme earned the Reserve Grand Champion Black award in 2009, David Barboza judging. His pedigree includes champions as well; his dam, Birchleaf Savanna, is the daughter of RFA Turk and grand daughter of Jolimont Peruvian Ivano.

RFA Turk has won numerous Reserve, Grand and Supreme championships, and is in great demand as a top Canadian herdsire. Jolimont Peruvian Ivano, a renowned herdsire, sired many champions throughout his career.

Xtreme's sire, Sunnyhill's Bandit is producing amazing coloured offspring including black and grey. Bandit is out of a Bolivian line, from the Acero Marka's herd.

As his pedigree holds much black and grey, we anticipated that Xtreme could pass on these colours to his cria. He has now proven that he can produce solid black and dark coloured crias, even when bred to white females.
