(taken on 15th May 2022 at 12 Years and 9 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

Popham Thunder needs little introduction as he has been a permanent feature in the UK show circuit in 2010, 2011 and 2012.

Thunder is very well bred and comes from two family lines that have uniform and predictable bloodlines that continue to perform to the highest degree. Conformationally Thunder is correct, upright and has great presence and strength. He displays a very true to type head and he is extremely well covered in fibre.

The fleece on this male is where he really excels. He is a very high fleece growth rate, fineness and density.

Each highly aligned fibre is uniform in micron and colour and this uniformity spreads right down under the belly and up into the head.

Popham Thunder is co-owned by Inca Alpaca, Redens Alpacas and Leytown Alpacas.

Current Fibre Results:

Secondary follicle to primary follicle ratio:

Follicle Density (at 70kg body weight): 45.5 per mm²

Fibre growth Rate: 0.37mm/day

3rd Year Staple Length: 135mm

MIC: 22.67μM, SD: 4.40μM, CV: 19.30%, 4.60% Over 30 Microns (μM), SF: 21.70μM

A black alpaca stands on a green lawn in front of a red brick house. It is wearing a wide, multi-colored sash with horizontal stripes of blue, yellow, red, white, blue, orange, and purple. The sash has gold fringe at the bottom and text printed on it, including 'DAS', 'HAR', 'DRESS', 'WAS', 'DRESS', 'SPOON', and 'CHURCH'. A person's hand is visible on the left, holding a stick that the alpaca is holding in its mouth. The background features a large white-framed window reflecting the sky and some greenery.
