34.70µ SD 7.00µ CV 20.30% % Over 30 Microns(µ) 71.40% SF 33.57µ Curvature 7.80 deg/mm Yield 2.10 Kg/Year

(taken on 5th May 2014 at 6 Years and 8 Months of age)

Description:

Having won 4 championships in his short show career in the USA we of course had high expectations, expectations he has exceeded. It doesn't seem to matter what quality of female you use him across the result is always a huge improvement on the dam. He is putting sumptuous colour in to his progeny, always on a strong a true to type frame, with lock style, fineness and density usually only found in whites, and all with good lustre but with some showing a lustre that is simply breath taking. Once again the breeding shows through in this boy with none other than MacGyver, famous in the USA for his pre-potency, as grandsire, The Synergist is certainly living up to his name. With cria from Alpaca Stud Fusion daughters already wowing us, and indeed judges, our confidence in this male has been proven well founded. At the 2013 British Alpaca Futurity his progeny scored the same number of points as the winning Herdsire which was a white. He has unequivocally earned his place as one of our 'Blue Blood' Herdsires through his progeny. Co-Owned with Faraway Alpacas & Pure Alpacas
