Description:

Fortune has great presence, due to a conformation with good frame and strong bone, evident in both his sire, CCNF Talon of CME, and his grandsire on the dam's side, Dovecote Jaquinto of Alpaca Stud, whose reputation as one of the UK's most influential males is well known. His sire, CCNF Talon introduces successful North American bloodlines to bring diversity to his offspring. He has had success in the showing over two seasons. Fortune's fleece is dense, fine, with well-defined staples, and consistency across the body, and his third fleece statistics show a maintenance of fineness. He started work in 2016, and some promising cria have arrived this summer (2017). With a small herd, we have limited scope for his service, and so he is reluctantly offered for sale to maximise his potential. Enferplex test for BTb would be arranged.
