Staple Length 100 mm

(taken on 12th June 2018 at 3 Years and 11 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Rococo has a strong, solid frame and is a beautifully balanced male. He has a deep broad chest and is well muscled throughout.

He has a true to type head style and stands very proudly as a true macho should do.

He has tremendous fibre coverage and grows an excellent staple length. The fibre on this male is fine, very dense, soft handling, very bright and has a well defined high amplitude, high frequency crimp style along the length of the staple.

Rococo is very uniform in colour and very uniform in micron from his rump through his midside to his shoulder.

In 2018 Rococo's first progeny hit the ground. Plenty of colour and with improved density and fineness across the board, we are extremely pleased with the impact that Rococo is having on our herd.

The three male cria born here from him in 2018 all went to the BAS National Show as part of our show team and were all successful. They took 1st and 3rd places in the junior brown male class and 5 place in a very competitive junior fawn male class.

With plenty of colour in his illustrious pedigree we feel Rococo will make a serious impression on the coloured alpaca scene in the UK over the next few years.

Prizes Won:

North Devon Fleece Show 2017

Brown fleece 24-48mths - 1st

Supreme Champion Huacaya Fleece
