Blood Lineage: U.S. Bloodlines

Date of Birth: 16th May 2015

Description:

Alakai is an amazing white Suri male, imported from Pucara International in the US in 2018. His genetics come from Pucara Kahuna, one of America's top stud males and Silkworm as his Dam.

Alakai stands on an extremely solid frame, with great body capacity and substance of bone.

His fleece is extremely fine, dense and lustrous with very organised lock structure and great fleece weight.

Alakai has a very calm temperament, which is much desired in a stud male.

Alakai started working in 2018 and has produced very promising cria in 2019, 2020 and 2021.

Alakai is not at present available for outside matings
