(taken on 2nd May 2018 at 7 Years and 2 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Green Park Neptune is compact, correctly conformed male with excellent bone density. He carries a very dense, fine, uniformly coloured fleece across his body and well down into his legs/up his neck. We are delighted with his progeny who all carry very fine dense fleece and are already doing well in the show ring.

Prizes Won:
