Fibre Testing Authority: SGS

Description:

In 2019 we took delivery of our new stud male Stoneleigh Celtic Explorer of Fangdale. This handsome mid-fawn boy has been awarded multiple championships and a Supreme Championship over the last two years at the largest shows in New Zealand. This includes the award of Champion Intermediate Male across all colours at the New Zealand National Show 2018.

We have been looking for an outstanding fawn male with fabulous genetics to join our stud for a while and Celtic Explorer is exactly what we have been looking for! His sire, Patagonia Celtic Rising Sun ET, owned by Shamarra Alpacas, is a New Zealand super stud who also sired last year's New Zealand National Supreme Champion. His dam, Shamarra Enchantress was purchased by Stoneleigh Alpaca Stud after winning Mature Champion Female at the 2016 New Zealand National Show. Further in his background, Patagonia Celtic Triumph and Shanbrooke bloodlines have been hugely influential.

His outstanding traits include both extreme density and fineness characterised by a uniformity of micron that extends across the body as well as a consistency of style into his extremities. His fleece is long stapling with a high frequency, highly aligned crimp style. It has a wonderfully soft handle and brightness.

Celtic Explorer passed certification as a stud male in New Zealand before arriving and his first of two expected Cria arrived this Christmas. We have thusfar restricted matings to our own females who have been scanned pregnant. We are offering Celtic Explorer for a limited number of outside matings in 2020 including the BAS Stud Auction.
