(taken on 21st April 2020 at 1 Year and 10 Months of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

Houghton Silver Dream is a stunning light silver grey male. His fleece is ultrafine, uniform and dense. He has a very high frequency crimp style showing good brightness and amazing staple length. He stands on a very correct frame with a short muzzle and true to type head. He is very well grown for his age and we have our first females spitting off. He is Sired by the legendary Houghton Noah II who is undoubtedly one of the best grey males in the UK. Constantly producing champion offspring with a very high percentage of greys. Houghton Silver Dream will be very busy on farm this year so only a very limited amount of outside stud services will be available.
