(taken on 1st October 2015 at 3 Years and 3 Months of age)

Fibre Testing Authority: SGS

Description:

D'Artagnan is a stunning, proven, black stud male. He has excellent conformation, a true-to-type head shape, with strong, stocky bone structure.

He comes from excellent bloodlines, including Rizardo, and he is a gentle, calm and friendly alpaca who is a joy to work with. When D'Artagnan is not busy performing stud services, he joins our other boys in attending weddings and birthday parties and is easily handled by children.

D'Artagnan's fleece is fine, bright and very dense. His fleece has a soft handle and he is retaining his fineness as he matures. He has excellent coverage right down his legs.

Although a black stud, D'Artagnan has thrown fawn, brown and white progeny when mated to dams of these colours.

90% of his offspring so far have inherited his head and body type as well as fleece attributes, including very crimpy, dense fleeces with improved fineness even out of thinner- and coarser-fleeced dams.

Please contact us for further details / stud fees tailored to your location and situation / to view some of D'Artagnan's offspring.
