Diameter (Micron) of first fleece sample: 26.50μ

Fleece:

26.50μ SD 5.30μ CV 20.20% % Over 30 Microns(μ) 18.30% SF 25.62μ Curvature 13.10 deg/mm

(taken on 6th May 2020 at 7 Years and 1 Month of age)

Fibre Testing Authority: Australian Alpaca Fibre Testing

Description:

This outstanding male is a recent addition to our Suri breeding programme. After many years of working in the North American show circuit Nick had coveted the Pucara Kahuna bloodlines; arguably the most pre-potent lines in the world. Jet Stream was selected by Nick from an outstanding group of males at Pucara International in 2016 and his 2nd fleece after arrival garnered no less than Supreme Champion fleece at the 2018 BAS National and Senior Male 1st in halter in the same show.

This bold upstanding herdsire demonstrates a solid frame and very correct phenotype, carrying a fine, dense and lustrous fleece layering back to the skin with outstanding organisation. His own attributes make him stand out, but with his first progeny on the ground Nicks faith in this bloodline has been repaid in full with the consistency and quality of those cria. Co-Owned with
