Description:

Khartoum is a true black Suri alpaca imported in to the UK in June 2021 from Molly Gardners Thisteldown herd in New Zealand. He was selected for his true to type Suri confirmation, his fineness, his extreme density, his lustre and his extreme density. I will only say one more thing about Khartoum. Judge Tim Hey at the Norther Halter Show described him as the best black Suri alpaca he had ever seen and he could find no colour contamination at all so common in black Suris. I think that should be enough to wet your appetites! Only available in 2022 through the BAS stud auction
