(Entnommen an 1/04/2023 im alter von 3 Jahre und 10 Monate )

**Faser-Untersuchungsorganisation:** Art of Fibre

### Beschreibung:

Inca No Strings is the latest male to pass all tests and meet our strict performance markers in order to join our stable of herd sires. This young male was the standout alpaca in our 2019 cohort and his growth and quality has continued to impress.

Conformationally this male is extremely sound, with excellent substance of bone, balance and correct aspects to each part of his attractive frame. Inca No Strings has also been selected for his fast growth, early weaning, early maturation and aversion to worms, coccidia and mites.

The fleece on this new sire is very advanced and highly productive. The density, length and uniformity of the fibres that are highly aligned, matched with great brightness, not only give the fleece a wonderful handle but also a very big cutting weight.

With such quality genetics being introduced on both sides of his pedigree and a trend of longevity of fineness, Inca No

Strings is going to be an integral part of our black breeding programme for many years to come.

Futuregen: EEa1a3

Inca No Strings is not available for outside stud servicing in 2024.
