18.40μ SD 4.00μ

*(taken on 8th June 2021 at 2 Years and 11 Months of age)*

**Fibre Testing Authority:** Art of Fibre

### Description:

Horizon is an impressive light fawn male with excellent confirmation and a dense very fine fleece with highly aligned organised staples and a high frequency crimp. His excellent pedigree includes his sire Bozedown Achilles and Joliment Rodrigo as his dam's sire. She still has an incredibly fine fleece; her 8th fleece was 19.6 microns. Horizon is also retaining the fineness of his fleece. He was placed 1st as a junior at the BAS National Show and Champion Light Fawn at the Three Counties. Sadly, due to COVID we were unable to show him as an Intermediate or as a young Adult. At the BAS National Show 2022 he was placed a very close 2nd in the Adult Light Fawn Male.

Horizon produced cria with 3 of our females in 2022. At the 2023 BAS National Show one of the white boys was awarded 5th place in a Junior White Male class and the light fawn girl was awarded 4th place in a Junior Light Female class.

Their first fleece sample results from Art of Fibre taken April 23 were impressive.

The light fawn girl had a Mic Ave of 13.8, SD 3.1

One White boy had a Mic Ave of 15.2, SD 3.6

The other white boy had a Mic Ave of 15.3, SD 3.8
