(Entnommen an 30/05/2022 im alter von 9 Jahre und 10 Monate)

Faser-Untersuchungsorganisation: SGS

Beschreibung:

To say we were excited to partner with Amber Autumn Alpacas with CCNF Legionnaire at the 2014 Breeders Edge Auction would be a understatement, a huge one. In a long run, Legionnaire went on to be the highest selling alpaca at the auction (we bought him for \$57,500), figures considering this guys genetics.

This spectacular young male was the 2015 Futurity Fawn Male Color Champion & 2015 AOA National Fawn Male Reserve Champion!! Two of the most pretigious shows in the alpaca industry and he took home purple. Ending his show career with four Judges' Choice awards and nine Championship awards.

By one of the world's great sires, out of a female from a sensational family line who has made a huge impact on the United States industry, here we have a male bred on a cross that has been proven to produce champions.

CCNF Legionnaire, a son of Snowmass Matrix Majesty, has enjoyed extraordinary success as a sire with championship winners in both the United States and Canada and his offspring being found in Poland, United States, Canada, and Australia. Overall, his offspring have won many championships and even Judges' Choice and National Championship titles. Even more impressive, his son Red Granites Pallaton (Now resides in Poland) won the 2018 Canadian Supreme

Champion Male award, Palltons offspring have had much success in the Canadian show rings themselves. Another son by Legionnaire, Red Granites Man of Mystery (Owned by Willow Wind Farm Alpacas) is the densest alpaca yet biopsied by Ian Watt in the USA, and we have not yet heard of a denser alpaca out there at a whopping 127.2 follicles/square mm density. His daughter, Red Granites Pixie was sold at the 2018 Amber Autumn Auction for a pretty penny, where she was purchased by EP Cambridge Alpaca Stud in Australia.

Combining Cas-Cad-Nac's powerhouse production female; CCNF Magdalena and Snowmass Matrix Majesty you would only hope for an advanced fleece, Legionnaire carries a extremely advanced fleece. He carried a six year old fleece with a AFD of 17.3 and SD of 2.5, SIMPLY UNREAL numbers for a six year old BREEDING male.

Legionnaire's breedings are limited, please contact us for more information.

Gewonnene Preise:
