23.40μ SD 5.50μ CV 23.50% % Over 30 Microns(μ) 11.00% Staple Length 95 mm

(taken on 21st June 2022 at 5 Years and 11 Months of age)

Fibre Testing Authority: Art of Fibre

Description:

An upstanding male with spot on conformation and lovely, dense white fleece with great length of staple. He has a simply perfect head style.

He originates directly from Peru and his pedigree does not deviate from Peruvian lines which makes him very unusual. His sire is Bozedown Comet 2 who is an impact male within the alpaca industry and was sired by the imported Galaxy of Bozedown.

His mother Berenice of Bozedown, according to Mary Jo Smith was also directly imported from one of the top, smaller Peruvian herds.

He has a lovely, inquisitive nature and is becoming a firm favourite here at Carpalla.
