Fibre Testing Authority: European Wool Testing Authority

Description:

Prima carries an impeccable pedigree including Windsong Valley Firedragon and EP Cambridge Peruvian Spartacus, two of the greats of Australian alpaca breeding.

He is a compact male with a very attractive head type and good balance.

However, it is his fleece that really made him a must-have addition to our herd. He has retained a very good level of fineness and uniformity of micron, both within the staple and across the body. His fourth fleece is super soft and bright, carrying traits we would expect from a younger male. when we add good density and above-average fleece length, you will know why we feel that Prima has a great deal to offer.

He will be covering many of our whites as well as coloured females in 2024 and we look forward to seeing what he can do.

Pottery Prima is in-house only.
