17.40µ Standardabweichung 2.80µ COV (der Variationskoeffizient) 16.40% % über 30 Mikron(µ) 0.00%

Faser-Untersuchungsorganisation: Art of Fibre

Beschreibung:

This male certainly lives up to his name!

Standing Ovation is a stunning young male, his fleece is exceptionally dense, superfine with incredible uniformity of both micron and colour.

He has tiny micro-stapling bundles from head to toe, all on a strong compact frame. He also has great fibre coverage and solid bone. Winning multiple champions & a supreme champion, best of british & judges choice - we are excited to see the impact this male will have on our herd.

We are expecting his first crop of offspring this summer 2024.

Standing Ovation is currently kept in house but pregnant females may be available.
