(Genomen op 1/05/2024 op de leeftijd van 4 Jaar en 11 Maanden)

Wolanalyse-organisatie: European Wool Testing Authority

Omschrijving:

Bozedown Bronze Moonlight is a fantastic macho fawn male with excellent conformation. Bronze catches your eye every time you are out in the paddocks with his flawless frame and his fleece is no different. He is carrying an abundance of fine, well organised fleece and is uniform in both colour and micron across his body with a low transition line.

You can pick out his progeny from a distance just by the look of them, they carry his beautiful frame and the fleeces do not disappoint either. We are thrilled with his first progeny and even more excited to see what comes along this year!
