### Description:

We've had our eye on this exceptional grey male for while; watching in admiration as his progeny win championship after championship in greys, browns & blacks. When the opportunity arose to purchase him in Spring 2024, we jumped at the chance! Co-owned with Holewood Alpacas, standing in East & West Sussex, Houghton Silver Dream, is available for hire for breeders in the South East for the first time.

He carries a very fine, dense uniformed fleece with one of his best traits being uniformity of colour. He has no spots at all on his blanket which is a very desirable trait. He has a very high frequency crimp style showing good brightness and amazing staple length. He stands on a very correct frame with a short muzzle and true to type head.
