*(taken on 10th March 2025 at 2 Years and 8 Months of age)*

**Fibre Testing Authority:** Alpakotela Lab

## Description:

Inca Replay has been selected to join our breeding programme to bring another layer of high quality bloodlines to the herd. He is the result of many years of dedicated black breeding and he stands as a symbol of the progress we have made in the pursuit of a more predictable and productive black alpaca.

Bred from one of our most famous and trusted dams in Inca Leading Light and sired by the highly influential Inca Lewesdon, Inca Replay stands strong and correct in all aspects of his conformation. He has fluid movement and correct proportion and he has the presence one now demands from a herd sire.

His fleece is very dense, uniform in colour and micron and is very soft handling. The primary fibres are medium to fine and the well aligned fibres are bright and long. These desirable characteristics makes the fleece this male yields highly valuable and super productive.

With such a depth of high quality bloodlines from years and years of dedicated breeding, Inca Replay offers breeders a cutting edge breeding option.

Inca Replay is Co-owned by Cinchero Alpacas
