### Description:

VekoFarm Hasco was selected to join our stable of sires after a long search. He is a male who exhibits good substance of bone, a deep body, wide hips and broad chest. He moves with a fluid motion and displays high fibre coverage and excellent presence.

The fleece that VekoFarm Hasco grows is very uniform in colour, with each staple containing densely packed super fine fibres that are bright, soft and uniform in micron. The growth rate of the fibre is also high which all adds up to a very high yield. We really appreciate the real softness and fineness Hasco is displaying.

Hasco is a very important sire for our breeding program as his pedigree is full of highly influential bloodlines. These genetics are sought after and to have them wrapped up in one elite black sire is a real blessing.
