### Description:

\*\*\*STUD SERVICE IS ONLY AVAILABLE VIA THE BAS NATIONAL SHOW STUD AUCTION\*\*\*

Beck Brow Touchdown is a striking, proven mid-brown herd sire whose fleece displays exceptional fineness, combined with impressive density and outstanding uniformity both within the staple and across his frame, including into the extremities. He demonstrates an advanced level of fibre organisation, featuring a high-frequency crimp style, an ultra-soft handle and excellent brightness. These highly desirable fleece characteristics are carried on a strong, correct and true-to-type frame, completing a well-balanced and functional male.

Touchdown is backed by proven and highly respected bloodlines. He is sired by the acclaimed Beck Brow Vidal, and his dam, Bozedown Campari, is renowned as the mother of the exceptional Beck Brow On The Money, further reinforcing the genetic depth behind this accomplished sire.

Now firmly established as a proven herd sire, Beck Brow Touchdown's progeny have already achieved colour championships in their own right and he is demonstrating his genetic versatility by producing cria across a diverse range of colours.
